UNDERSTANDING AND SUPPORTING ANXIOUS KIDS: PSYCHOLOGICAL ADVICE FOR ADULTS

DATE

13th March 2021

TIME

10 am - 12 noon

VENUE

[Online Webinar](#)

This course will significantly improve participants' understanding of anxiety in school aged children and teach effective psychological skills and strategies that reduce anxiety. This course is designed for any parent or professional who wants to understand childhood anxiety and learn practical and effective strategies that work.

Dr. Hayes, is an award winning and leading psychologist with almost 20 years experience working with children, families and adults in the HSE and in private practice.

She has provided psychological training and consultation services to multiple organisations on a wide range of psychological issues and has helped thousands of clients to overcome a range of psychological challenges.

COST €68 per person.
